

The Bridges Federation

PUPIL PREMIUM at SNOWFIELDS- PLAN 17-18

The funding received is used to meet identified needs of pupils, using a range of intervention strategies outlined below, based on the barriers to learning we have identified. Each of these is tailored to individual needs, reviewed and evaluated on a **termly basis** as part of pupil review meetings. Due to the nature of the demographics surrounding our schools, there are issues around the threshold for Pupil Premium. There are many families that are just above the cusp for pupil premium.

We strive for **all** children to achieve their potential throughout the federation, regardless of any barriers to learning. What are we doing to diminish the difference in attainment and progress?

- Reviews of pupil progress 3 times a year- interventions put in place for identified groups of children
- Ensuring all children receive high quality teaching
- Teachers and other staff targeting Pupil Premium and identified children in class
- Analysis of progress data
- Regular reviews of interventions to ensure that they are effective
- Regular updates to the Governing Body on the use of pupil premium funding and progress of pupils. Named Governor responsible for overseeing Pupil Premium funding and provision.

Identified **barriers** to attainment and progress:

- Children who achieved 2c at KS1 who make slower progress in KS2
- Parents unable to support learning at home
- Low communication and language skills across EYFS and KS1
- Behaviour of individual children and challenging personal circumstances
- Mobile pupils with gaps in their prior knowledge
- Children with prior poor attendance with gaps in their knowledge
