Space Talk at Alleyn's School

We had a great time listening to Dr Kevin Fong at Alleyn's School. He is a doctor, lecturer and also works with NASA helping to train astronauts. Dr Fong told us all about life in space and how it could affect our bodies.

One interesting thing I learned was that being in space too long can weaken your bones, so you have to take regular exercise to help this.

Lucas, Year 6

BETT

On Thursday the Digital Leaders visited the annual Bett Fair at the Excel centre where they got to see and play with new technology.

We saw lots of interesting technology such as lego that can solve rubik's cubes! We even had a go at using Virtual Reality masks which made it seem like we were able to hold butterflies in our hands.

It's interesting to see what the future will be like and how different the technology will be.
