SNS Y5 Science Lesson in the Garden

We went outside to the garden to learn about different types of plants and

flowers and how they reproduce.

We ate

apples, rose-hip, cucumbers, parsley and mint from the garden. I learnt about the male and female parts of a flower. We then cut the meadow in the school garden so it can grow back next spring/summer. It was really fun and I took some mint to grow at home."

Shem - Y5 School Councillor.
